Heavy Metal Detector Color Reference Sheet

Green	Water Testing / All Heavy Metals
Yellow	Lead (Pb)
Orange	Mercury (Hg)
Red	Cadmium (Cd)
Pink	Cobalt (Co)
Light Blue	Aluminum (Al)
Dark Blue	Iron (Fe)
Purple	Nickel (Ni)
Black	Zinc (Zn)

Clean Water Lead Contamination Mercury Contamination

Our GHM-01 Detector for Common Heavy Metals rapidly and easily detect common heavy metals. A simple color change alerts the user if the following heavy metals are present.

- Lead
- Thallium
- Mercury
- Cadmium
- Cobalt
- Aluminum
- Iron
- Nickel
- Zinc

The detectors can be used to test water or urine for the presence of heavy metals. Full instructions are provided to ensure that all tests are performed properly.

Testing for lead, thallium, mercury, cadmium, cobalt, aluminum, iron, nickel and zinc can be completed in less than one minute. A reference color chart is provided for interpreting the test results.
